PREFACE

The Myanma Port Authority, as an incumbent authority and a facilitator of the port industry in Myanmar, periodically reviews and revises the Tariff and Dues for all ports of Myanmar. The Tariff and Dues expressed in this book is effective on 22nd September 2022.

Charges are classified into four categories, 1) charges on vessels, 2) charges on cargoes, 3) miscellaneous charges, and 4) charges on containers. General explanation for these charges is mentioned separately.

Port users are kindly requested to contact the Deputy General Manager (Traffic Department) for Yangon Port and respective Chief Port Officers for the Outports, for further information associated with the Tariff and Dues.

22nd September 2022

Charging Base and Unit

2. **Charges on Vessels:** These charges are calculated based on gross tonnage of the vessels.
